Experience

- Apr 2021 – Present **Frontend Developer, Inno-Focus Businessconsulting GmbH, Berlin.**
- Development of frontend features on the core product Inno-Ecos, a platform connecting multiple stakeholders of a business and adapted to each customer needs with multiple small apps.
 - Stack: JavaScript, jQuery, HTML, CSS, ASP.NET, C#.
- Oct 2020 – Apr 2021 **Frontend Developer (freelancer), 2 tonnes, remote.**
- Development of new features such as the participant access for a 100% remote game, the development of a world version and the creation of a carbon footprint calculator.
 - Stack: React / Redux, JavaScript, HTML, CSS, Rest API with Python.
- Oct 2020 – Dec 2020 **Teacher Assistant (freelancer), Le Wagon, Berlin (Germany).**
Supporting new students in the Bootcamp with pair-programming in Ruby-On-Rails and JavaScript.
- Oct 2017 – Jan 2020 **Quality Project Engineer, Valeo CDA Systems, Créteil (France).**
Worked on a 500 million euro hands-free car access system project for PSA Group. From early development to production launch phase, my duties involved:
- Chasing risks and challenging the team so that customer quality objectives are fulfilled.
 - Insuring software validation KPIs in 15 acceptance testing reviews with customer.
 - Managing product and process validation test plan.
 - Supervizing 8 customer audits in Veszprem, Hungary and Shenzhen, China.
 - Winning a Request for Quotation on a similar product for PSA Group (200 million euros).
- Feb 2017 – Jul 2017 **Intern in additive manufacturing, Airbus, Hamburg (Germany).**
- Sep 2015 – Feb 2016 **Intern in a validation laboratory, Valeo Powertrain Systems, Créteil (France).**

Education

- Jul 2020 – Sep 2020 **Web development bootcamp, Le Wagon, Berlin (Germany).**
- 9-week intensive coding bootcamp on Ruby on Rails, HTML, CSS, JavaScript, SQL and Git.
 - Designed, implemented and shipped to production a website inspired by Airbnb.
 - Created Greenbird, a Rails app for everyday eco challenges, hosted on Heroku.
- Sep 2014 – Jul 2017 **Diplôme d'ingénieur en génie mécanique (Mechanical engineering master degree), Université de Technologie de Compiègne, Compiègne (France).**
- | | |
|---|--|
| Project management | Electric machines |
| Quality & production process management | Control system engineering |
| Value engineering | Power electronics |
| International economy | Mechanical properties of materials / CAD |
- Aug 2016 – Dec 2016 **Erasmus exchange program, Lappeenranta University of Technology, (Finland).**
- | | |
|--|-----------------------------------|
| Entrepreneurship theory | Digital control design |
| Sustainable strategy & business ethics | Embedded system programming (C++) |
- Sep 2012 – Jul 2014 **Two-year undergraduate intensive course in mathematics and physics, Lycée Janson-de-Sailly, Paris (France).**
- Jul 2012 **Scientific Baccalaureat (Abitur equivalent) obtained with highest honors, Lycée Vincent Van Gogh, Ermont (France).**

Languages

French	Native speaker	
English	Full professional proficiency, European C1 Level	<i>TOEIC 930/990 (Spring 2016)</i>
German	Intermediate, European B2 Level
