Experience

- Apr 2021 – Present **Frontend Developer, Inno-Focus Businessconsulting GmbH, Berlin.**
- Development of frontend features on the core product Inno-Ecos, a platform connecting multiple stakeholders of a business and adapted to each customer needs with multiple small apps.
 - Stack: JavaScript, JQuery, HTML, CSS, ASP.NET, C#.
- Oct 2020 – Apr 2021 **Frontend Developer (freelancer), 2 tonnes, remote.**
- Development of new features such as the participant access for a 100% remote game, the development of a world version and the creation of a carbon calculator.
 - Stack: React / Redux, JavaScript, HTML, CSS, Rest API with Python.
- Oct 2020 – Dec 2020 **Teacher Assistant for Ruby-on-Rails and JavaScript (freelancer), Le Wagon, Berlin (Germany).**
- Oct 2017 – Jan 2020 **Quality Project Engineer, Valeo CDA Systems, Créteil (France).**
Worked on a 500 million euro hands-free car access system project for PSA customer. From early development to production launch phase, my duties involved:
- Chasing risks and challenging the team so that customer quality objectives are fulfilled.
 - Insuring software validation KPIs in 15 acceptance testing reviews with customer.
 - Managing product and process validation test plan.
 - Supervizing 8 customer audits in Veszprem, Hungary and Shenzhen, China.
 - Winning a RFQ on similar product with PSA customer (200 million euros).
- Feb 2017 – Jul 2017 **Intern in additive manufacturing, Airbus, Hamburg (Germany).**
- Sep 2015 – Feb 2016 **Intern in a validation laboratory, Valeo Powertrain Systems, Créteil (France).**

Education

- Jul 2020 – Sep 2020 **Web development bootcamp, Le Wagon, Berlin (Germany).**
- 9-week intensive coding bootcamp on Ruby on Rails, HTML, CSS, JavaScript, SQL and Git.
 - Designed, implemented and shipped to production a clone of AirBnB.
 - Created greenbird.cyou, a Rails app for everyday eco challenges, hosted on Heroku.
- Sep 2014 – Jul 2017 **Mechanical engineering master degree, Université de Technologie de Compiègne, Compiègne (France).**
